VOLUME XXIII

COLUMBIA, KENTUCKY, WEDNESDAY, MARCH 10, 1920.

NUMBER 20.

## Gone With a Fertilizer Company.

Mr. L. E. Brady, who has been connected with the Russell Creek Milling Company for thirteen years, tendered his resignation last week and has accepted a position with the Price Chemical Company, Louisville. Mr. Brady is a very excellent gentleman, a man well informed and one who has many friends. He will doubtless make the company a very efficient traveling salesman, and we take pleasure in commending him to the public. He is reliable in every particular and will not misrepresent in order to make a sale.

## Public Sale.

Murrell Bros. will sell at public auction, at the Russell's Creek Roller Mill, on Saturday the 20th of March, One horse, one mule, a wagon and a lot of plows. Household goods, comparatively new piano, and a large number of other articles and kitchen furniture.

## Cut the Crop.

Being on the Louisville market several days last week. We heard dozens of farmers ask the question, "What will we do?" With more than one-half of the tobacco selling from one to six cents. Plant one acre instead of two, that's the remedy.

A census taken in Hart Co., reported in one district 388 farmers, who raised tobacco in 1919, and made an average sale of \$6.00. In same district 12 farmers raised corn and hay—for same they sold for \$40.00 per ton and \$2.00 per bu. Indications are now, that several States, who have never before raised tobacco will raise it on a big scale this year. The Blue Grass section are already preparing for the largest crop ever grown. Be wise, double your corn crop and cut tobacco in two.

## No Raise.

The State tax Commissioner recently notified the Adair County Judge that this county would be raised \$90,000 on lands. Judge W. S. Sinclair and Mr. M. C. Winfrey, Circuit clerk, went to Frankfort last week, appeared before the tax Commissioner, showing that the raise would be unjust; that the lands of Adair were listed high enough. After the statements of Judge Sinclair and Mr. Winfrey had been made, the Commissioner decided to let the report stand as given in by the local tax Commissioner.

## Ban Still On.

The Board of Health met last Wednesday to consider the advisability of lifting the ban. A number of new cases of flu were reported out in the county, and the Board decided to let the ban remain on until further notice.

Circuit court was in session and it was ordered that Judge Carter could proceed with his court allowing no one in the court-room but those interested. He was also directed to dismiss the grand jury and it was done accordingly.

Elizabeth, the oldest child of Mr. and Mrs. Burce Montgomery, met with a frightful accident last Saturday. She was in the cook-room, and attempted to get something out of the kitchen cabinet, and it fell over on her. The back of her head was considerably hurt and she was otherwise bruised about the body. Monday morning she was better, and her father stated that he thought she would be all right in a few days.

Mr. J. C. Miller, a former Columbian, has been awarded the contract of putting up a \$30,000 garage building, in Lebanon, for Lewis & Drye.

Mr. Sam Bryant died at Campbellsville last Friday. He was a native of Adair county. He was 25 years old.

## Sad Burying.

There was recently a very sad burying at Greensburg, one that brought distress to the entire community. Miss Daisy Risen of that city, was attending school at Bowling Green when she was attacked with influenza. Her mother left home as soon as the word reached her for the bedside of her daughter. She had been in Bowling Green but a few hours when she was attacked with the same disease, and on the same day she and her daughter died, one in the forenoon, the other in the afternoon. Their remains were conveyed to Greensburg for interment.

## For Sale.

Pure Bred Plymouth Rock Eggs, Pope and Pope strain. 15 for \$2.00. W. D. Murrah, Elkhorn, Ky.

## Death of a Native.

Mr. R. M. Hurt received a letter last Wednesday, from Hederick, Okla., stating that his sister Mrs. Sue Miller, wife of S. W. Miller, died on the 25th of February. She and her husband were born and reared in Adair county, but left here for the West many years ago. Mrs. Miller was a daughter of Young E. Hurt, who was a very prominent citizen of Adair county, held an office whenever he desired to fill one. Mrs. Miller was a very excellent lady and her brothers and sisters and other relatives were shocked when the news of her death reached them. She was 69 years old.

## Feed Stable.

Mr. Guy Nell has opened a livery and feed stable on the alley back of the News office. Good feed for stock at all times, and the traveler can be accommodated with stock.

## In Memory of Aunt Nellie.

A beautiful life has gone out, as the writer saw it, a life of service to her Master. The night was never too hot, too cold nor too rainy for her to refuse to go to the call of the needy. In doing this she was fulfilling the words of Matthew, 23:35; James 1:27. The last part of verse 27 fits her life so truly. I wish to say I never heard her speak harmful of any person. I never saw her when she was out of humor. This being true, her life was beautiful. She has left a priceless heritage to her seven children. Proverbs 31:28 are applicable to her life and character and the home. She was a mother to the undersigned in many ways.

## For Sale.

Grist mill complete—French Burrs, Crusher, and Engine, 6 H. P. Come at once. S. F. Eubank.

The mysterious clock on the show window of Lewis Young's Jewelry shop, drew a great many sightseers last Wednesday, the day it was put up. It keeps accurate time. There is no machinery about it, the hands and the figures on the dial make up the outfit. It is indeed a curiosity and a mystery, and is a splendid advertisement for Mr. Young.

## COL. FRANK L. RIPPY

### ANNOUNCES FOR CONGRESS

Well-Known Anderson County Democrat Enters the Congressional Race in the 8th District.

FRANK L. RIPPY.

The Democrats of the Eighth Congressional District will be interested to see the official announcement of Col. Frank L. Rippy, of Anderson county, as a candidate for the Democratic nomination for Congress in said district, subject to the action of the State Primary Election—Saturday, August 7, 1920. Col. Rippy's candidacy has been recognized as a foregone conclusion for several weeks. Messages from all parts of the district have been coming in from leading Democrats pledging their support in the event he should decide to make this race.

He has served his city four terms as City Attorney, having resigned in 1911 to accept the office of County Attorney which he held until he went overseas.

Col. Rippy has not only served his city and county faithfully and acceptably, but laying aside all professional ambitions, he voluntarily offered his services to his country and went forth to do battle for righteousness and democracy.

He was a member of the Kentucky National Guard from 1905. He had service on the Mexican border with the Second Kentucky Infantry. He served with the 149th United States Infantry and 351st Infantry overseas as Lieutenant-Colonel.

In every position, civil and military, he has steadily moved upward. It would be a fitting tribute for the Democrats of the Eighth Congressional District to recognize such faithfulness, ability and patriotism as has made the career of this sterling young Democrat who now places his destiny in their hands.

Anderson never had a district office and during all these years has given a substantial Democratic majority to all nominees.

They need have no anxiety about the final outcome, if they should select him as their standard bearer: for he is an aggressive campaigner and a forceful speaker and will be able to measure lances with his Republican opponent in any open field of debate.

Col. Rippy expects to see and speak to the Democrats of every county in the district as the campaign advances, and in the meantime will appreciate a careful consideration of his candidacy.—The Anderson News.

## Died at Glenville.

Mrs. Mary Lucy Wheat, who was the widow of Dr. Wheat, died at Glenville last Thursday night. She was a daughter of Mr. Sidney Helm, and was about sixty-five years old. Dr. W. B. Helm, of Greensburg, was her brother. She was a very estimable lady, and had been in declining health for some time.

A large number of relatives and friends attended the funeral and burial.

We can furnish you most anything you want in floor coverings or to go in your house. Nell & Cheatham.

We commend Messrs. John, Frank and Joe Sandusky, who recently removed to Harrodsburg, to the people of Mercer county. They are Adair county boys, honest in their transactions, all round good citizens. They purchased a large milling concern in Harrodsburg. They know how to conduct the business, and we feel sure they will give entire satisfaction.

New lot range stoves and the best lot china ware we have ever had. Nell & Cheatham.

## Cabinet Phonograph.

Mrs. Daisy Hamlett received last week, from Sanders & Hendrickson, Campbellsville, a cabinet size. Improved Edison Phonograph. She is perfectly delighted with it. The articulation of the records is perfect and the tone is soft and sweet. No instrument will add more to well regulated homes than the Improved Edison Phonograph.

## Attention, Farmers.

Come and see my new changeable speed Thomas mower.

S. F. Eubank.

Steve Gibson and three of his sons, who murdered deputy sheriff Marvin Cummings in the courthouse at Albany, Ky., were surrounded by a posse and they surrendered. Excitement is high.

Word has reached relatives here that Mr. W. C. Evans and son, Smithshire, Ill., are quite sick. Mr. S. T. Evans, a brother, and uncle, left Saturday to be at their bedside.

Mr. E. S. Shively, sold his farm, on Burkeville road, eighty-three acres, to E. M. Harrison, of Breeding, for \$3,900.

## Largest Woman in Adair County Dies.

Last Wednesday night, Mrs. Susan Wilson, the wife of John Wilson, who lived in the Milltown country, died after a short illness. She was about fifty-two years old. On account of her immense proportions, she was known to everybody in the Western end of this county. She weighed 480 pounds a short time before she was taken sick, and one of her neighbors told The News that when she died she would have weighed fully 500 pounds. There is no woman in this part of Kentucky that is as large or any ways nigh as large as she was.

Neither one of the Columbia undertakers had a casket large enough to receive her body. Mr. Butler Jones made one. It was about the size of a spring wagon bed.

## Circuit Court.

The following cases were disposed of last week:

Vernon Bryant, charged with breaking into and stealing articles from Providence church, continued until the next term of court.

Jo Sexton, charged with trespass, confessed and was fined \$150.

Ruel Burton, charged with malicious shooting, confessed and was given one year in the penitentiary.

Lewis Cooper, of color, confessed to breaking into Sam Royse's shop, and was given one year in the pen.

The case of Elrod & Co., against the Royer Wheel Company, claiming damages for \$2,900 and some dollars for breach of contract, was tried last Thursday and Friday. The evidence showed that the defendants had contracted for a large number of spokes at certain prices and before the contract was filed by the plaintiffs the defendants canceled the contract. After quite a number of witnesses had testified, on both sides, the case was argued for defendants by Mr. Robert Taft, Cincinnati, and Judge W. W. Jones this place, and for the plaintiffs, Gordon Montgomery, this city, and Judge Jas. Denton, Somerset. Mr. J. R. Garnett, this place, and Mr. Ben Smith, Somerset, appeared for the defendants, but did not speak. The jury was out but a short time, returning a verdict in favor of plaintiffs for \$2,354.27.

The trial of John F. Neat, charged with maliciously shooting Lucien Brockman, was continued until the July term of the Adair circuit court by the Commonwealth.

A great many misdemeanor cases were continued until the next term of circuit court.

All kinds harness and plow gear. Nell & Cheatham.

Mr. Shreve Davis, who was deputy postmaster under Mr. N. T. Mercer, tendered his resignation last week and will engage in other business. ### Produce if You Would Get Profits

Every now and then a letter comes from some farmer who is discouraged with the outlook, and who is thinking of sharply cutting down his production of this or that. One man thinks farmers should cut down the wheat crop; another can see only loss in cattle feeding; another is afraid to take any chances on hogs.

Now, the Southern Agriculturist is about the last paper in the world to advise any man to produce "all he can of everything he can" without taking thought as to what he is going to do with it and what he is going to get out of it when he has produced it; but it does feel very confident that this is no time willfully to restrict production. The world needs food still, and is likely to need about all it can get for some years to come. It is the farmer's job to produce this food, and he must not fall down on his job. The motion that restricted production can be made permanently profitable to himself is all that is best in our civilization if once the hunger-madness is allowed to seize upon an already distraught world.

The farmer must study how to

market as well as how to produce, but the man who has nothing to sell is not very vitally interested in marketing. Certainly the farmer is under no obligation to produce and then sell at a loss; but he is under obligation to himself and the world to produce. He must produce as economically as he can, and then market as advantageously as he can. It is the farmer who does this who will get ahead. The man who grows wheat on suitable land, well prepared, well fertilized, will find wheat a profitable crop. The man who feeds good hogs or good cattle on cheap home-grown feeds will find profit in feeding. So all along the line. This is no time for plunging of any kind; but it is a time for sound, careful, thoughtful farming—for the building up of the soil, the growing of good crops, the breeding and feeding of good live stock. The farmer who sticks to the paths of good farming need not be afraid to go as far forward as he can, or have any hesitancy about producing all he can.—Southern Agriculturist.

### Got Money to Discover America.

It only cost about seven thousand bucks for Columbus to discover America but Chris had an awful time raising the coin. Documents recently published estimate that his ships cost about \$3,000. Being admiral and boss only netted Chris \$300 a year in wages. The two foreman captains who went with him were on the pay roll for \$200 a year apiece and the crew got \$2.50 a month and cakes.

Columbus had an idea that added billions to the wealth of the world and poured a flood of gold into the treasury of Spain for hundreds of years. But he dragged that idea around Europe by the tail for years begging somebody to put up the money to put into effect. When he did find some one who recognized the value of his plan, Queen Isabella had to take the tiara and the pearl necklace and the royal wrist watch and the silver backed hair brushes around the corner to the store with the Three Balls over the door and soak them to raise the coin.

When Chris got back, you can be sure there were plenty of people who said: "Sure, I knew Columbus had the right idea. He came to me with it but I

didn't have the money to go in with him.

### Increase of Suicides.

From statistic secured by the "Save a Life League," it appears that there were 5,121 suicides in this country last year, 3,212 men and 1,909 women. More than 100 returned soldiers took their own lives and suicide pacts between soldiers and their sweethearts have been very common. A few years ago the proportion of women suicides was one to every four men, last year's summary shows one to every three. A singular and pitiful feature of the investigation is that 477 children killed themselves 225 boys and 252 girls neglect or mistreatment causing the act in most of the cases.

## The Best Insurance Against Influenza.

Prominent Educator Believes That Vapometha is a Sure Preventive.

Dr. R. M. Brame, discoverer of Brame's Vapometha Salve, has a letter from C. C. Wright, Superintendent of the Wilkes County, N. C. Public Schools, in which he says: "We have used Brame's Vapometha Salve for nearly all the ills for which it is prescribed and have always secured satisfactory results. If used in time it has never failed to break up colds, usually the forerunner of Grippe, Influenza and Pneumonia. . . . I speak from personal observation. I believe if this preparation is used in time it will prevent the development of pneumonia in every instance, if used according to directions."

The strong statements are fully justified by the remarkable recoveries that follow. Brame's Vapometha Salve is applied freely over the chest and throat and inserted in each nos-

tril. Brame's Vapometha Salve penetrates the pores of the skin, relieving congestion, at the same time healing vapors arise and are breathed through the mouth and nose, loosening the phlegm and causing the patient to breathe freely. Its absolute reliability is evidenced by dozens of unsolicited testimonials. Brame's Vapometha Salve will relieve pneumonia, influenza, grippe, pleurisy, bronchitis, whooping cough, catarrh, asthma, tonsillitis, hay fever and inflammation of the skin.

Vapometha is applied externally, and it will not stain the clothes, as other salve do. No home should ever be without it. Buy it from your dealer or direct from the Brame Drug Co. North Wilkesboro, N. C. A small bottle costs 30c; a much larger one, containing six times as much \$1.20.

## CALLED HER FAMILY TO HER BEDSIDE

Six Years Ago, Thinking She Might Die, Says Texas Lady, But Now She Is a Well, Strong Woman and Praises Cardui For Her Recovery.

Royse City, Tex.—Mrs. Mary Kline, of this place, says: "After the birth of my little girl... my side commenced to hurt me. I had to go back to bed. We called the doctor. He treated me... but I got no better. I got worse and worse until the misery was unbearable... I was in bed for three months and suffered such agony that I was just drawn up in a knot... I told my husband if he would get me a bottle of Cardui I would try it... I commenced taking it, however, that evening I called my family about me... for I knew I could not last many days unless I had a change for

the better. That was six years ago and I am still here and am a well, strong woman, and I owe my life to Cardui. I had only taken half the bottle when I began to feel better. The misery in my side got less... I continued right on taking the Cardui until I had taken three bottles and I did not need any more for I was well and never felt better in my life... I have never had any trouble from that day to this."

Do you suffer from headache, backache, pains in sides, or other discomforts, each month? Or do you feel weak, nervous and fagged-out? If so, give Cardui, the woman's tonic, a trial.

### Take the Rag off The Bush.

Mr. Webb Kelley, of Garrard county, and universally known by his famous "Kelley Tobacco Seed," has made a record this year with five acres of tobacco, that competitors may take a shot at for several years to come.

From five acres of measured ground Mr. Kelley sold \$55,78 17 worth of tobacco over the breaks of the Garrard Tobacco Warehouse at an average close to the dollar mark. But from this same piece of ground and same tobacco he gathered his celebrated seed, amounting to 4,000 ounces, which he has sold and delivered and for which he received \$8,000 making a total of

\$13,678,17 from five acres of land.

### At Rest.

A message from Gadberry Friday afternoon of last week, told the sad story that the pure soul of Miss Gracie Bennett, daughter of Mr. and Mrs. Ed Bennett, had left this tenement of clay and gone to that realm prepared for gentle spirits like her own. We all sat down and wept because one so young, so pure and so full of promise had gone at the call of the righteous Judge, to receive the reward prepared for the pure in heart at the foundation of the World. But she was so gentle, so kind and true that our human nature murmured, and complained at our sad loss rather than rejoice over the glory of her eternal home.

Gracie was born May 24, 1899, died Feb. 20, 1920, making her 20 years, 8 months and 20 days old. She had that dreaded disease, Tuberculosis. All was done that loving hands could do to relieve her suffering. She would often say that she was only waiting for the Master's call. A short time before the end came, she called her family and friends to her bedside asking them all to meet her in Heaven. She told how her mother, brother, sisters that had gone on before, how they welcomed her in at Heaven's door. She clapped her hands and rejoiced to the very last saying, "she saw a fountain of water and soon she would take a drink from it." How we wish that every one could have seen the smiles on her face? She left as bright evidence of just sweeping through the gates as we ever heard. Her mission in life, though short, was one of devotion. It calls to mind how uncertain life is, though bright and accomplished the future may be, yet death is ever at our door. The old must die, but the young, too, are often subjected to the sting of death. To the heart-broken friends and loved ones, we would say, weep not for Gracie, but commend your sorrow to Him, who doeth all things well, and say thy will be done. The body was laid to rest Sunday afternoon at the family graveyard to await the resurrection morn.

"Sleep on dear Gracie and take thy rest,

Lay down thy head upon the Savior's breast,

We loved thee well,  
But Jesus loved the best."

A Friend,

Minnie Bailey.

In many parts of England it is a belief among the women that rosemary worn about the body strengthens the memory and adds to the success of the wearer in anything she may undertake.

In Canada women are eligible both for the Federal Parliament and the Provincial Legislatures. No woman has yet been elected to the Dominion Parliament, but several have been chosen to seats in the law-making bodies of the different Provinces.

### Plant Locusts in Your Gullies.

I don't know how many acres of locust trees there are in Tennessee, but there ought to be ten times as many. Fence posts, telephone posts, cross-tie timber are all getting scarce. The man who plants locust trees on his thin, or washed, or rough lands is getting an unshakable grip on the future. My friend Maddox, who goes about showing Tennessee farmers how to reclaim their gullied lands by growing locusts

on them, is doing a great work for the state of Tennessee.

There are some thousands of poor land owners in the state who should call on him for help in starting locust groves this winter, or go ahead and do it themselves, for it is not a hard thing to do at all.—Southern Agriculturist.

## U. S. INCOME TAX EXEMPTS NOBODY

Every Person Who Had Income in 1919 Must Determine Own Liability.

MARCH 15 LAST FILING DATE.

Surest Way is to Follow Form 1040A.

Free Advice in Doubtful Cases. Severe Penalties in Law.

Nobody is exempt from Income Tax. An obligation is laid directly on the shoulders of each citizen and resident to consider his own case and to get his return in on time if one is due.

With each return showing a tax due a payment must accompany the return in the full amount of the tax or at least one-quarter of the tax.

All returns for 1919 must be filed on or before March 15.

Must Show True Figures.

In figuring up his earnings for income tax purposes a person must take into consideration all items of taxable income, and each item itself must be accurate in amount. Guesses and estimates must be avoided, for the return is made under oath.

Everybody who had an income during 1919 must now determine whether his or her net income was sufficient to

amount to require an Income Tax return. The best way to find out is to get a Form 1040A and follow the instructions printed on it. That form will serve as a reminder of every item of income; and if a return is due, it tells how to prepare and file it.

One of the important points to keep in mind is that a person's net income is found by a computation prescribed in the law, and that each item of income from every source must be considered, unless specifically exempted.

Another thing to remember is that the personal exemption allowed taxpayers by law has no relation whatever to the requirement to file return. This exemption is not to be considered until a person has figured out his net income and determined whether it was sufficient to require him to file a return. Then, if a return must be filed, he should read carefully the instructions for claiming exemption, and complete his return.

If in doubt on any point as to income or deductions, a person may secure free advice and aid from the nearest Internal Revenue office. Many banks and trust companies are also furnishing similar service during banking hours.

Heavy Penalties in Law. For failing to make a return on time the penalty is a fine of not more than \$1,000 and an addition of 25 percent to the tax, if any. For making a false or fraudulent return the penalty is a fine of not more than \$10,000 or imprisonment not exceeding one year, or both; and, in addition, 50 percent of the tax. There are other penalties for failing to pay tax when due and for understatement of the tax through negligence.

Many Sources of Income.

Aside from what one may earn by his services, there are many other sources of income. If he sold any property during 1919 he must figure out the gain realized. If he rented buildings, land, apartments or rooms, such rents must be considered taxable, and he may claim deductions for necessary expenses incidental to renting.

Bank interest is a common source of income and is taxable whether withdrawn or not. Any amount of interest credited to a depositor is income to the depositor.

Interest on mortgages and notes is taxable; also bond interest received from corporations.

A taxpayer who cashed his insurance during 1919 must report as income any excess received over the total of premiums paid.

Members of partnerships or personal service corporations or beneficiaries of an estate or trust must report their shares of income distributable to them whether or not actually withdrawn.

Dividends of domestic corporations must be reported. Many other forms of income are taxable, unless specifically exempted.

## ANNOUNCEMENTS

## FOR CONGRESS.

We are authorized to announce RALPH GILBERT, of Shelby county, a candidate for the Democratic nomination for Congress in this, the Eighth Congressional District of Kentucky. State Primary Election Saturday, August 7, 1920.

We are authorized to announce FRANK L. BIPPY, of Anderson County, a Democratic candidate for Congress, in the Eighth district, subject to the action of the State primary, August 7, 1920.

## REPUBLICAN STATE CONVENTION.

Every county in the State was represented at the Republican State Convention, held in Louisville, last week. So far as our reading goes, it was a very harmonious gathering.

Mr. E. T. Franks, of Owensboro, took occasion to air himself, but the speech of the convention was made by Mr. Hays, the National Committeeman.

The resolutions adopted denounced every thing done by Democrats and lauded the Republicans to a very high degree.

The morning after the convention the sun rose in the East, and just before twilight it set in the West.

The object of the convention was to name delegates to the National Convention, and here they are:

## DELEGATES FROM THE STATE-AT-LARGE.

Mrs. Christine Bradley South, Frankfort.

Gov. Edwin P. Morrow, Somerset.

A. T. Hert, Louisville.

Dr. S. H. George, Paducah, a negro.

## ALTERNATES.

H. Green Garrett, Winchester.

Mrs. John W. Langley, Pikeville.

Dr. Ben L. Bruner, Louisville.

George F. David, Lexington.

## PRESIDENTIAL ELECTORS.

W. J. Deboe, Marion.

Samuel Willis, Ashland.

## STATE CENTRAL COMMITTEE-AT-LARGE.

Mrs. John W. Langley, Pikeville.

Maurice Galvin, Covington.

Robert Hunter, Providence.

Ed Chenault, Lexington.

Louisville is now making an effort for a \$1,000,000 auditorium. The plan is for the city to vote \$500,000 in bonds and the other \$500,000 is to be raised by subscription. If the effort proves successful, Louisville will have the finest auditorium in the United States. This building will also stand as a memorial for Louisville soldiers who were killed in France.

Under the head of announcements it will be seen that Col. Frank L. Ripy, of Anderson county, is a Democratic candidate for Congress in the Eighth district, subject to the action of the State primary, to be held August 7. He is a gentleman of ability, a fine speaker and will make a thorough canvass of the district. He is strongly endorsed by his home people. He is a prominent lawyer, was a Lieutenant Colonel in the world war, went over seas and did valiant service for his country. He will see the Democrats of Adair at an early day.

Senator Robt. Antle's bill for a non-partisan board of education with authority to appoint Superintendent and teachers has been passed by the Senate. The question is how can it be a non-partisan board. There will be three to two every time an appointment is up. There will surely be three Republicans and vice versa.

In the District Republican Convention, held at Danville, on the 1st inst., Hon. G. L. Perryman, of this county, was named as the Elector for the Eighth Congressional District.

## ELKS BECOMING THRIFTY.

The pledge of the Elks of New York State to secure among their membership the absorption of \$500,000 worth of War Savings Stamps not only will be fulfilled but the goal will be reached months before the time limit set, according to reports to the Savings Division of the Treasury Department.

Sixteen of the sixty seven lodges in the state already have exceeded their quotas, twenty eight are rapidly approaching the top and the remaining twenty three are making such efforts that their goals are assured.

## THE BANKER KNOWS.

The National Banker, in discussing the encouragement by bankers and bond dealers of partial payment plan of purchasing government securities and other high grade bonds as an aid to thrift among people of moderate means, says:

"The public at large should hold five times as many high grade bonds as it owns now—and correspondingly fewer wildcat securities.

"The people owe it to themselves to keep clear of stock and bonds of uncertain character. They should also avoid dealers of doubtful reliability. The losses every year through dishonest bond and stock dealers and their fraudulent shares are simply beyond belief.

"Furthermore, these losses in a majority of cases fall on working people who have invested unwisely. Every first-class house should do its share of educational work in training people to avoid bogus securities. In doing this the reliable dealers are building for the future, for they have it in their power to place sound and profitable bonds and stocks within the reach of all, and the more thoroughly they develop their selling methods the more quickly will they drive out of business a class of unreliable concerns that live by imposing on public credulity."

## West Point, Miss.

Mch. 3rd, 1920.

Editor The News:—

The only snow in this part of the country, this winter, was a little seen in the air for a few minutes last Sunday, the last day of February. March came in with sunshine and pleasant temperature and work on the farm is under headway. The last two weeks has been ideal farm weather and it was used to good advantage. We have had too much rain this winter, but that seems to have been true of many parts of the country. Aside from the rain we have had a very mild winter, our coldest spell dropping the mercury to 18 above, nothing for two or three nights. Corn is selling from \$1.75 to \$2 per bushel and hay from \$20 to \$35 per ton. Most all the cotton has been put on the market and brought from 35 to 40 cents per pound. Mules are in good demand and bringing good prices but not higher than in your section according to market reports. The foregoing indicates that I am writing a letter and not an article of any merit so this is my real intention. In most of my communications I have not made mention of the several families who live here and formerly from Adair Co., but in this I feel that in justice to them and for the pleasure of their kin and friends who read The News, I will report their whereabouts as best I can. At this writing they are all in fine health and in love with this country and doing well. All of us are making preparations for a big crop and if the season is good will deliver the goods next fall. R. K. Young and W. H. Gill will operate extensively on their 1200 acre plantation near Macon. They will put in several hundred acres of cotton and corn to adorn their fields and the lowing herds of fine beef cattle will replenish their purses after the St. Louis market does its do next fall. Mr. Young and Clellan Moore, formerly from Green county, are united in a 500 acre plantation and Mr. Moore is in charge. He and family are highly pleased and the future is bright for them. This plantation, 3 miles out of Macon, will attest its worth with two to three hundred acres in cotton and corn while its fine pastures will graze a splendid herd of extra grade of cattle. They have a good number of fine Black cows and are adding daily to the list such as promise good returns. Mr. Young and Mr. Perkins, formerly from Garrard county, own 320 acre farm 4 miles out of this place and on this a big crop of cotton is to be planted. Mr. J. A. English recently sold his farm for a good net profit and has removed to this city. At present he is not actively engaged but is likely to be in agriculture before a great while. Mr. Marvin Traylor and family are pleasantly located on their splendid farm just outside the corporate limits of West Point. Mr. Traylor will put out about 60 to 75 acres mostly in cotton. He will also have an acre or two in melons. He has the best of farm machinery and can do his work on riding plows, harrows and cultivators. He has refused \$55 per acre profit on his farm, but he will not sell.

Mr. Ernest Yates, is in charge of my farm. He has seven good sized negro families and will put out a good crop. It is our purpose to cultivate 200 acres in corn and cotton or more if we can, while some outsiders will put in 50 to 75 acres more. In addition to corn and cotton we will sow oats and some Alfalfa, but the temptation to raise cotton got the best of me. If it is a good season it will be a paying crop as it looks like 40 cent cotton next fall. Mr. Yates has over 100 acres turned and six to seven teams will soon fix the entire acreage and do other things beside. We are all sorry that the Hood Brothers are not in position to be in charge of their farm here. It is a good one and as pretty as in this country. It is an alfalfa proposition nearly every acre of it. Most of the people have planted gardens and I am one of the people. This part of the country is about six to eight weeks earlier than in central Kentucky and this is one of the reasons it appeals to me. I am tired of long, cold winters and should I ever leave this country I feel like going nearer the equator. In fact I am not a lover of cold weather. The sunshine suits me and I feel like that I have found the country that gives me shine. Farms are still selling, but no big rush on and not likely for some time, as most people do not want to prospect while the ground is bare. The middle of April and May is a splendid time to see what this land will do and buyers will be here at that time. There are many great bargains here in as fine land as in any country and I would like to see some of my old friends own them. I have no inclination to double shovel on poor land and on hill sides. With best of wishes.

C. S. Harris.

## Portland.

There have been several cases of flu in our town, but all have recovered.

Mr. V. R. Curry made a business trip to Greensburg Saturday.

Mrs. Jennie Squires visited her mother, Mrs. J. A. Parson, several days of last week.

## The American League.

Fifteen young men who were either soldiers or sailors in the late World war, have made application for a charter, and a League will be established at this place sometime in the near future. It is a non political organization, its objects being for the betterment of man. It is in no sense connected with the army, purely a civilian organization, to build up high ideals, thereby making better citizens.

Those who served in the army, Navy or Marine corps are eligible to join.

See E. W. Read for further information.

We have to pay our accounts so please call and pay yours.

burg, visited his sister, Mrs. V. R. Curry, last week.

Mr. Allen Parson, our produce man, made a trip to Greensburg last Wednesday.

Mr. Lewis Compton is very busy making feed baskets these winter days.

Mr. Dick Rodgers has been confined to his room several days with nervous trouble.

Only a few plant beds have been burned here.

Master Guy Dohoney is planning for a big crop of tobacco this year.

The farmers are behind with their work on the account of bad weather.

Mr. Howard Curry, of Greensburg, is visiting his brother, at this place.

## Rowetown.

There is quite a lot of sickness in this community, such as pneumonia and flu.

Walter Compton bought a farm, near Nell, known as the Logan Reece farm. Price unknown.

Mr. R. H. Kinnaird has moved to his new home, near here, known as the Moss Gibson farm, and we must say he has brought with him the nicest lot of goats that has been seen in this country for a long time.

Several from this place attended the sale of Mr. W. R. Janes, at Sparksville, and reported everything sold well. Mr. Janes aims to make Texas his home.

Mrs. J. M. Thompson, who was sent to Lakeland asylum some time ago, improves slowly.

Mr. Ira Flatt is attending school at Bowling Green.

## SCORES OF PEOPLE HAVE FOUND TRUTONA UNFAILING AS PREVENTIVE OF "FLU"

"This Medicine Saved Me From Having Influenza," Mrs. Sears Declares—Many Similar Statements Furnish Unquestionable Proof.

Since reaching the definite conclusion that as yet no cure for influenza has been found, health authorities are practically unanimous in their opinion that Prevention is the one best means for stamping out the dreaded disease.

As to the best means of insuring effective prevention the answer is to be found in Surgeon General Blue's recent statement in which he says, "it is important that the body be kept strong and able to fight off disease germs."

Public statements from scores of people have proven that there is no better agency for providing body strength and vitality to withstand attacks of disease than Trutona. Many will remember the remarkable work done by Trutona last year when, in innumerable cases, serious after-effects of influenza were quickly overcome by the perfect tonic. In only a slightly lesser measure has Trutona been declared to have prevented attacks of the malady.

## ONE OF THE MANY CASES.

Mrs. Josephine Sears, 2803 Portland avenue, Louisville, after gratefully describing the many remarkable benefits she gained from Trutona, says: "I really believe this medicine saved me from having influenza."

There are scores of other similar statements, too numerous to mention, and they prove conclusively that Trutona is truly a remarkable agency for the prevention of influenza as well as an unequalled reconstructive tonic for overcoming bad after-effects of the disease.

Trutona's healthful action reaches every portion of the body. Performing its work faithfully and efficiently Trutona rebuilds diseased nerves and tissues, creates a healthy appetite and assists in digestion and assimilation of food, the results of which are invariably to be seen in the ruddy cheeks and sparkling eyes of those who have taken the perfect tonic.

Don't take a chance—take Trutona. Trutona is sold in Columbia at Paul Drug Company. Adv

## Local News

For the Farmer.

Kentucky farmers this year have on hand livestock worth approximately \$165,017,000 compared to \$78,439,000 worth of stock on farms in the State last year. There is only a very slight decrease in the total number of all classes of farm animals as a whole, but the lower prices, compared to a year ago, make the total value approximately seven and a half per cent less than in 1919.

Horses number approximately 429,000, mules 231,000, milk cows 457,000, other cattle, 580,000, sheep 1,236,000, and swine 2,691,000. Compared to 1919 this is approximately a decrease of 2 per cent in horses, no change in number of mules, 1 per cent increase in number of milk cows, 5 per cent decrease in other cattle, 3 per cent decrease in number of sheep and 5 per cent decrease in number of swine.

## GOOD HEALTH

LIFE'S GREATEST BLESSING

Happiness and Success Within Easy Reach of Red-Blooded Men and Women.

ANEMIC CONDITION UNNECESSARY.

Pepto-Mangan Makes Rich, Red Blood-Builds Up Pale, Thin Anemic Men and Woman.

Good health is the most important asset of life. Without a vigorous, strong body and a keen, clear mind, true happiness and enjoyment are impossible.

And yet so many women, and men too, whose misfortune it is to be pale, thin and anemic, hopelessly accept this condition in the belief that robust health and real happiness are not for them.

Thousands of men and women have been restored to vigorous health and lasting happiness by Gude's Pepto-Mangan. This beneficial blood tonic contains the very properties so vitally needed to improve the blood. Pepto-Mangan, if taken for a few weeks, will enrich the blood and create thousands of the tiny red blood cells that are so necessary to carry nourishment and strength to every part of the body.

Pepto-Mangan is safe, beneficial, and pleasant to the taste. For convenience it is prepared in liquid and tablet form, both possessing exactly the same medicinal properties.

Be sure to ask your druggist for "Gude's" when you order Pepto-Mangan. "Gude's" is the genuine Pepto-Mangan. Look for the name "Gude's" Ada.

## Obituary.

Owen Spalding Smith, son of Mr. and Mrs. T. I. Smith, was born in Adair County Ky, Aug. 8, 1894, departed this life March 1, 1920.

Spalding was a sober and industrious young man, he was no great talker but always had a kind word for those he met along the way of life. He professed his faith in Christ in early life and joined the Disciples Church.

Was married to Miss Sallie Davis about four years ago. To this union one child was born, Little Mary Catherine, a sweet, little babe, I never knew a more devoted couple, and O how this father loved the little one. It cast a shadow over the entire community when the news came of his death, while the cloud of death was hovering around the broken hearted family. He called father, mother and brothers to the bed and said farewell, tell all the people good bye back at home. He had recently moved to Campbellsville

and entered business there. In this new field of labor he had made many new friends.

Among his last words to his devoted mother he said, I don't dread to die but do not want to leave wife and baby. The wife and little one were both dangerous sick at that hour. The funeral was conducted by the writer at his old home in Cane Valley, in the presence of many sorrowing friends and loved ones, after which we laid his body to rest in the beautiful cemetery at Cane Valley to await the resurrection morn.

To the broken hearted wife, father, mother, and two brothers, and all the many relatives and friends we extend our sympathy.

By a Friend.

## The Year 1920 Will Be One Fraught With Momentous Making of History.

In the libraries of the future, the historical volumes, marked 1920, will deal with a critical period of the world's history.

The whole world is now in a frenzy of discontent. In the old world new parties with new policies, each striving for control, are walking hand in hand with the spectre of distrust, where they are not already dying in the flame of fratricidal war.

In the United States profiteering has become a science, all sense of values is gone. Bolshevism is raising its vicious head, and labor and capital, by passing the buck, each to the other, are leaving the middle class bearing the brunt of the burden.

It is a critical period through which this world is passing, and one that demands the whole-souled interest of every thinking man and woman in this world.

You can not perform your duties as a citizen of this country unless you think right; you can not think right unless you are fully informed; you can not be fully informed unless you read a daily newspaper.

As a citizen, and as a voter, you wish to vote intelligently. You wish to know what the leaders of the big political parties are offering as the panacea for this present condition. In order to perform this duty intelligently, you must have access to the news as it is published day by day.

Granted that it is your duty to read a daily newspaper, it is also your duty to read the paper that will give you the most news, particularly when its cost is the same as the others.

The Louisville Herald has the largest circulation of any morning newspaper in Kentucky, and all Louisville newspapers are sold at the same price, this is self-evident proof that it is considered the best paper by the most people.

The Louisville Herald gives you the news from the Associated Press, that wonderful news gathering organization, which covers the entire world with its list of correspondents; in addition it gives you all the news from Europe that is gathered by the Universal News Service; this in addition to The Herald's own list of special correspondents and its editorial staff. No newspaper can give you more than this—few can give you as much.

The Louisville Herald, apart from its general news value, thoroughly covers the financial world, and keeps you fully informed as to the daily fluctuations on all marketable commodities. News of the world of sports is more than a tabulation of sporting events, as compiled for The Herald's sport page.

The Louisville Herald contains more features of general family interest than we have space to specify in the short space of this advertisement; but we will say this much, that there is something of interest to every member of your family in every issue. We will, if you are unfamiliar with The Herald, gladly send you a sample copy on request. We would suggest that in order to protect yourself against a raise in subscription price for the coming year, that you give your order to your local agent now; if there is none in your town, send in the coupon below.

(By J. Sherman Porter.)

The beginning of the week in the Legislature Tuesday was marked by the transfer to the Senate of the prohibition enforcement bill, which passed the House last week by a majority of 62 to 23, with amendments which are declared by some of its friends to weaken it but generally accepted by the dyes as not of vital importance, since the stringent jail sentence and penitentiary penalties in the original bill are left intact and the injunction and abatement clauses are all that the dyes could wish, tho the confiscation feature is eliminated.

The bill as passed conforms to the Volstead Federal prohibition law and it is said that it is not likely to be opposed in the Senate. Those who voted against it in the House were: Representatives Ballard, Boling, Bryson, Ciarlo, Day, Duffy, Foster, Gamblin, Gossett, Holladay, Hudson, Huff, Huntsman, Johnson, Kaufman, Kimbrough, Neel, Travis, Webb, Williamson and Winn.

The bill prohibits the sale, manufacture and gift of all intoxicating liquors except for sacramental, medical, scientific or mechanical purposes, containing more than one-half of one per cent of alcohol.

Medical preparations manufactured in accordance with formulas of authorized schools of medicine, proprietary medicines unfit for beverage use, toilet, medicinal and antiseptic preparations and solutions, flavoring extracts and syrups unfit for beverage made, vinegar and preserved sweet cider and alcohol medicated according to such formulas as will render it unfit for beverage purposes are expected.

Punishment for first offense \$50 to \$300 fine and thirty to sixty days in jail; second offense, year in prison; third and subsequent offense, five to ten years.

For corporations which may violate the law, \$1,000 to \$5,000 fine for first offense, and not less than \$5,000 for subsequent offenses.

Manufactures of liquor must file bond of \$5,000, and shall file semi-monthly with clerk statement showing make and quality of sales, amount sold and to whom.

Druggist must keep a daily record of sales.

Physicians must keep duplicates in alphabetical order of prescriptions for liquor and each prescription must contain name and address of patient, name of pharmacist and statement that physician is in personal attendance on patient.

Only one pint in ten days may be prescribed.

Druggists and physicians violating the law may be deprived of their licenses for one year.

Public drunkenness is punishable by fine of \$10 and and \$100 five to thirty days.

Railroad conductors are invest-

ed with police power under the act.

Officers, agents or employer of common carriers violating the act are subject to fine of \$50 to \$500.

On affidavit of State or Federal officer and one other citizen, describing the premises wherein intoxicating liquors are suspected of being sold, and magistrate may issue warrant and entrance be enforced.

The act does not apply to manufacturers having permits for transportation under the national prohibition act.

Any person may have liquor in his possession for personal use.

**Better Hogs and Better Feeding.**

There are two factors in connection with the hog business which are always of extreme importance,—(1) quality of hogs fed, and (2) quality of feeding done. However, under the unfortunate conditions of high priced feed and low priced hogs which have existed during the past six months, the two factors mentioned have become even more important than before. In other words, the man who has fed good hogs and has done good feeding has been able to pull through the hog market slump, so far, in fairly good shape; but the farmer who has been feeding an inferior grade of hogs in a common, inefficient way has lost money, and the more he has fed the more money he has lost. There never has been a stronger argument for better hogs and better feeding than the experience of the past six months.

It is impossible to say too much in favor of better hogs. In fact, quality in all classes of livestock is of extreme importance, good quality often being responsible for the difference between profit and loss in the feed lot. Good hogs are more efficient users of feed than poor ones; that is, any certain amount of feed put into good hogs will make more pork than if feed to poor hogs. In some way, which is difficult to explain, the good hog is able to digest, assimilate and store in the form of flesh in its own body, a greater proportion of the materials from the feed than the inferior animal.

In this connection, mention should be made of the boar and his importance as a sire. The present day slogan is "Use a pure-bred boar." This should be changed slightly.

The Slogan should be, "Use a Good pure-bred boar." There are pure-bred scrubs (this applies to all classes of animals,) as well as other kinds of scrubs. The fact that a boar is pure-bred, even though he may be registered, does not mean that he is necessarily a good animal or a good sire. A good, pure-bred boar is the kind to seek and the kind that sows should be mated with. A common boar should be given no consideration as a breeder. The quicker he is sent to the shambles, the better.

The above discussion relative to better hogs is very true and highly important, and yet it will benefit a man but little to get better hogs if he will not feed them properly. The two, better hogs and better feeding,—must go hand in hand for best results, on the whole, hogs are not fed as well as they could be with but little extra effort and actually less expense. This is quite true in some sections of Kentucky, especially in the Eastern part. It is safe to say that much pork produced on Eastern Kentucky farms is produced at an actual loss, costing farmers more than it would to buy in.

Corn, mast, kitchen waste and grass are the foods commonly depended upon in Eastern Kentucky for the production of pork. None of these contain much protein and mineral matter,—those materials in feeds which produce bone and muscle, or in other words, make the animal grow. Certain proportions of protein and mineral matter are absolutely necessary in rations for hogs to produce satisfactory growth and development. The younger the animal, the greater are the proportions of these two materials necessary in the ration. Fattening hogs need but small amounts.

**Obituary.**

On February 5th, the death angel visited the home of Mr. J. I. Willin, and took his beloved wife, Mrs. Hattie Willin, after a severe illness of pneumonia of about two weeks' suffering. The deceased was 44 years old last June, which made her full age at time of death, 44 years and almost 8 months. She had been a member of the Zion Baptist church for about 27 years and had been a consistent member all that time. Those who had known her all the time judged her as a true christian lady. She and her husband had been married about 19 years, and this union was blessed with 3 children, Mark, aged 18, Lambert, aged 15, and Olive, aged 10. Sister Willin was a quiet lady with not many words. She was industrious and kind about her home. The bereavement was worse because the husband and oldest son were confined at the time of the death and were prevented from attending the funeral and burial. They were both confined with pneumonia. The deceased was taken to the home of Mrs. Fannie Montgomery, Feb. 6, and Rev. L. J. B. Smith conducted funeral services in the presence of a goodly number of relatives and neighbors. He delivered a comforting sermon from John 10: 27-29, which shows the great protection of Christ for his children which he called sheep. After funeral services the remains were deposited in the Montgomery family cemetery to rest until the resurrection morning. We are informed that she leaves 3 half sisters and an aged mother, besides the husband and children to mourn the loss. The mother was sick and could not be present at the time. The husband and children are not christians. Mr. Willin in a personal conversation with the writer expressed an earnest desire to be a christian and be prepared to meet the companion again. My earnest prayers are that he may be and I hope the husband and children may all turn their hearts sincerely to the Lord who alone can save and comfort, and prepare them to meet the wife and mother beyond this veil of tears, where parting shall be no more.

**Dry Enforcement Bill is Advanced In State Senate.**

(By J. Sherman Porter)

Frankfort, Ky., March 1. The Senate Committee on Alcoholic Liquors has favorably reported the liquor enforcement law, which passed the House by more than 2 to 1, and it has been advanced to the point where it will require only a few days to send it to the Governor unless it is amended, in which case it would, of course, go back to the House for concurrence in the Senate amendments and might get lost in the legislative shuffle, as the Rules Committee of both sides will be in charge of all legislation this week.

It is said to be improbable that any attempt will be made to amend the bill in the Senate. There is a genuine sentiment in favor of giving prohibition a chance to show its benefits, and to furnish a law with real penal-

ties to compel the lawless liquor men to respect it. For that reason the penalties were made severe, experiences having demonstrated that fines without imprisonment would not stop the law breakers. With a jail sentence and perhaps a penitentiary sentence facing him, it is probable that the temptation to illicit distilling and selling will be very much reduced.

With both parties in the last election pledged to enforcement of the law and endorsing the statewide, as well as national amendment, backers of the bill say there can be no justification for any member of the Senate failing to support the law en-

forcement act. The vote in the House showed that party lines had been broken to smash on this question, and that Republicans and Democrats had joined to put an end to whisky outlaws in Kentucky, with evils equal to those of the old lawless saloon threatening not only the cities but the dry counties as well.

The bill to tax whisky fifty cents a gallon passed the House. It will yield \$17,500,000, three fourth of which will go to the road fund and the other fourth into the State treasury.

Nearly 15,000,000 liberty bonds were retired by the Government during the month of January.

## ADDITIONAL LODAL

### Birthday Dinner.

Mrs. Sallie Smith, who lives near Mt. Pleasant church, the mother of Mrs. W. C. Murrell, this place, spent a very happy time last Sunday the 7th. On that day she was seventy-five years old, and her relatives in that community, the various members of the Butler family, spent the day with her, enjoying a most bountiful dinner. Nearly all her immediate kin were present, but her brother, Mr. Josh Butler, who is confined to his room. It was a day long to be remembered.

### Influenza On the Increase.

38 cases reported to Health Officer last week. 70 cases this week with several localities not reporting their cases.

Mr. Charley Tupman, of Joppe, who went overseas, and was under shell fire twenty-five days, reached home about ten days ago. In one engagement he was wounded in the jaw by a machine gun, which kept him in a hospital for more than a year. His jaw does not feel natural at this time, but his general health is good.

Mr. Lyman Cape, father of the young Grover Cape, killed by Bryant Shearer, on Melson's Ridge five years ago, reached Columbia last Tuesday night, from Oklahoma. He said he started for this place as soon as he heard that the man who kill his son, had been caught and landed in Columbia jail.

Mr. Austin Loy, one of Adair's best citizens, now gets his mail at Columbia. He has removed from Fairplay to his farm on the Jamestown road, recently purchased of Mr. Mark Holaday. Fairplay has lost a good neighbor and friend and the Zion community has gained one.

### Gradyville,

We are having some very cold weather at present.

Uncle Charlie Yates has been on the sick list for the past few days.

Mr. Thos. Moss is growing weaker each day and can not last but a day or so.

Mr. Jo Hunter is getting along as well as could be expected for a man of his age with a broken limb.

There has been a number of cases of flu in this section for the past month, but we are glad to report the cases have about all recovered.

Owing to the very cold weather the first of the week, there were only a few from our town attended court at Columbia last week.

Mr. Leonard Walker, one of the progressive farmers and business men of Nell community, passed through here the first of the week with a nice bunch of hogs, en route for Columbia, where he had sold them at the market price.

Messrs. E. H. Hughes and H. A. Walker, of Columbia, were by the bedside of Mr. Jo Hunter one day last week.

Mrs. W. P. Flowers, who has been in Columbia with her daughter, Mrs. James Hoy for the past week, returned home the first of the week.

Owing to the high water and bad roads, we failed to get any mail for a day or so last week, but we console ourselves by looking forward to the near future, when bad roads and high waters in old Adair will be a thing of the past, as it is a certainty now that we will get the pike and have bridges, too.

Mr. H. C. Keltner, who had the misfortune of getting his leg broken by the fall of his horse he was riding a few days ago, we are glad to report is getting along nicely. Dr. L. C. Nell, who was his attending physician informed us on his return from Mr. Keltner's, that he had five cases at that time with broken limbs, and the most of the cases were people over fifty years of age.

Mr. H. A. Walker, of Columbia called in to see us for a few hours, while out on his farm looking after his farming interest a few days ago. Mr. Walker informed us that the tobacco market was a little quiet for the present, but his firm was on the market for all the weed they could buy at prices subject to the quality of tobacco.

Messrs. Dudley & Son, our efficient mill men, have been unable, for the past few days to do any grinding on their mill, from the fact that they are having installed a new engine to their mill. This will be a great saving in fuel as well as labor. They have had a machinist here for the past week putting the machinery in. They expect to be running in a few days.

Mr. James Buchanan, the pop-

ular salesman of Buchanan Lyon Co., of Campbellsville, made his regular trip here last week, and as usual did a good business with our merchants.

Mr. Amos Keltner and family left us last week for their new home at Spurlington. We regret to give this good family up. We had no better citizens than Mr. Keltner and family. Your reporter and Mr. Keltner were closely connected in a business capacity for two years or more, and we know whereof we speak, that he is strictly a good, religious business man, and we take pleasure in commending them to the people of Spurling, where they will reside.

### Rugby.

We are having lots of sickness. We have about twenty cases of flu, but not serving them as tough as last winter.

Master Nimmy J. Akin who has double pneumonia, is slowly improving.

Your scribe transacted business at Keltner last week.

Several from here attended Mr. W. R. Janes' sale last Friday. Most of the things went high, but stock. Your scribe bought a good year old mule for one hundred dollars.

T. J. Thompson, L. W. and A. D. Sparks, were in your city last week, and reported the roads in a very bad condition.

Sam Simpson whose horse threw him a few days ago, knocking out some teeth and bruising him up generally, is able to be out again.

Mr. Jo Shives our merchant transacted business in Columbia last Saturday.

The farmers here have done very little towards farming, on account of bad weather and sickness.

Mr. Arthur Curry has about completed moving here from Bliss. Glad to have them with us.

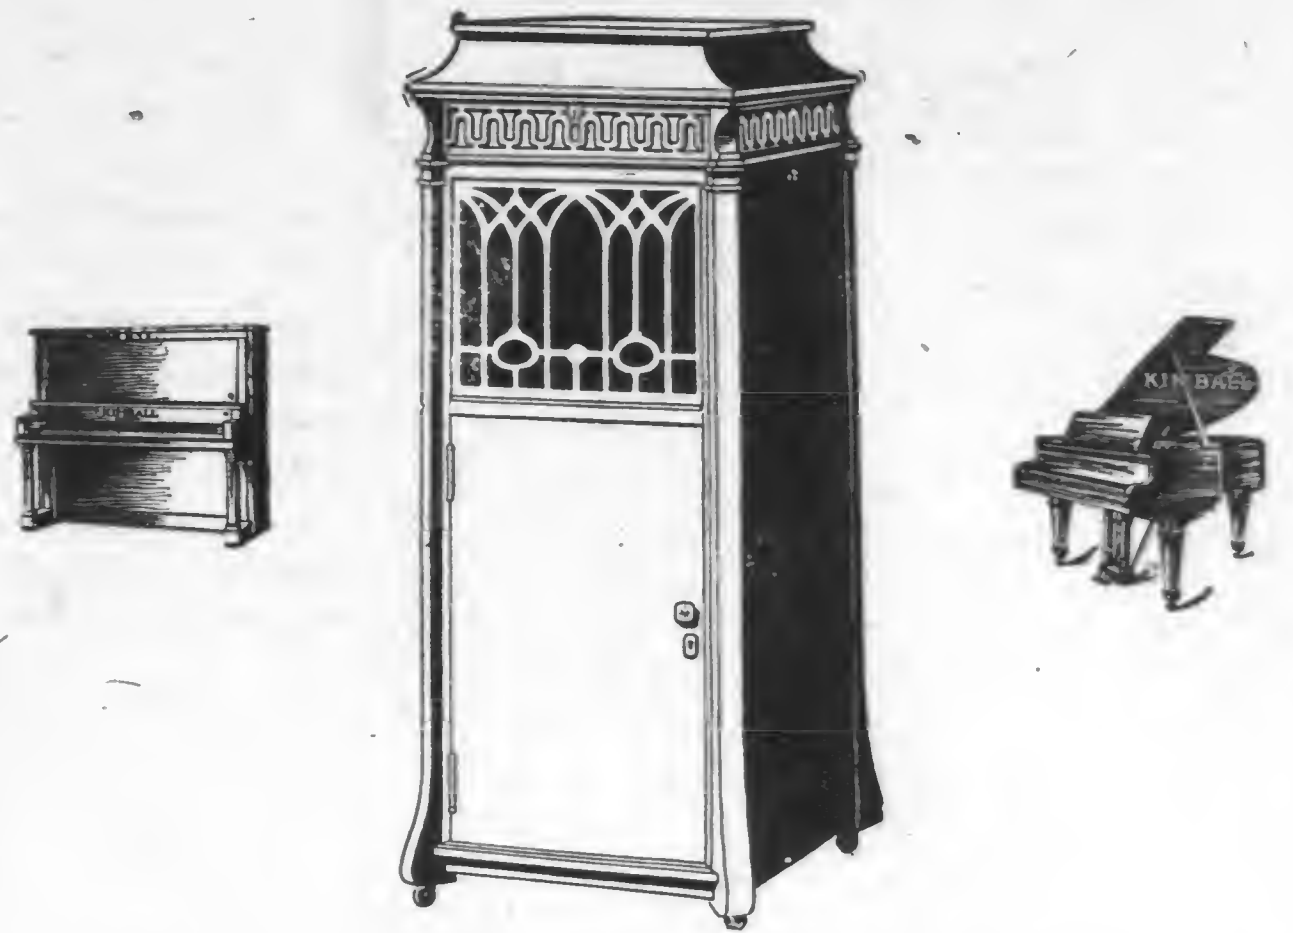

The tobacco market has gone dead when a fellow only gets five cents a pound for his tobacco and buys his tobacco paying five cents an ounce for his smoking and five cents a chew for his chewing, he feels like cussing the tobacco trust. Something will have to be done, a fellow can not raise tobacco at five cents and pay five dollars and up for shoes and other things in proportion, the farmers can not live at such.

Mr. Boss Janes and Miss Ada McKinney drove to the residence of Rev. H. T. Jesse, last Thursday afternoon and were married. The bride is the daughter Mr. and Mrs. Elroy McKinney. The groom is the son of Mr. and Mrs. Leslie Janes. We wish them many happy days together.

Where our teachers will teach this year. Valeria Campbell at Independence, Tina Campbell at Birds, Ola Rowe at Antioch, Ira Flatt at Rowe Town, Your scribe at Keltner.

We will furnish the Adair County News and Cincinnati Weekly Enquirer, one year each, for \$1.00. The quiler is the best weekly that comes to this part of the State, and it contains all the Kentucky news.

Campbellsville, Ky.,

Feb. 17, 1920.

To all whom it Concerns:—

In the year of 1911, we installed one of the Automatic Feed Carbide Generators and Complete Lighting Outfits, with 18 or 20 lights, including all the rooms, porches, cellar, etc. This system has always given the best of Service, and Light Superior to Electricity and far safer than Oil Lamps and Lanterns. It has never cost us a cent for repairs or new parts as none have been needed, and appears to be as good in every way as when installed nearly Nine Years Ago.

We can highly recommend this System of Carbide Lighting for any Farm or Town Home.
